

Mrs. Englehardt Makes Gift to Mokena Library

A group of ten collections of folk tales and fairy stories have been given to the Mokena Village Library by Mrs. Rudolph Englehardt. This outstanding gift for the children of Mokena, was made by Mrs. Englehardt in recognition of the importance of encouraging children to read. "I was fortunate to have had parents who believed in encouraging good reading at an early age," she said. "If I could make a wish for the children of this community, I would wish that they could be given the facilities of a really good library and the desire to explore the rich reading material thus placed within their reach."

Included in the group of gift books are the following: "German Folk and Fairy Tales" - a varied and lively collection handed down by

country people for generations.

"French Folk and Fairy Tales" - including fresh, unfamiliar stories as well as the classics Perrault, Madame de Beaumont.

"Russian Folk and Fairy Tales" - colorful stories from peasant lore about kings, princesses, fabulous animals and birds. These are full of magic and fantasy, sure to delight all readers.

"Chinese Folk and Fairy Tales" - ancient stories of romance and adventure, set in strange and exotic oriental life.

"American Indian Tales and Legends" - an enchant-

ing collection of the prized examples of Indian folklore as faithfully retold from the campfire days of Navajos, Creeks, Iroquois, Senecas and Cherokees. Beautifully illustrated with over one hundred full color pictures of primitive Indian art.

From the "Encyclopedia Britannica Home Library Service, Volumes I, II, and III of the Children's Hour." These contain a wide selection of stories of the great literature of old times, and are bright with colorful illustrations to delight the reader. Mrs. Englehardt hopes to complete the sixteen-volume set for the Mokena Library.

"The George Washington Papers" - an interpretation of Washington's most significant writings presenting a dynamic portrait of our first president from his surveying days to those of a retired citizen.

"All in French" - a new and delightful way for children and adults to get a quick start in speaking and reading the French language. Using a unique look - learn teaching method, this guide contains over 2500 entries, each of which is illustrated by a full color picture of a basic word, phrase or idiom.

All of these books will be of interest both to young and old readers it was said. The fairy stories are adaptable for telling aloud, and it is hoped by Mrs. Englehardt and all Book Club members connected with the Mokena Village Library that they will receive a wide circulation in the community.

Orland Girl To Compete For NI-Gas Scholarship

A National Honor Society member, Kathleen Ann Diekman of Orland Park, will represent this area Saturday (Feb. 26) when she competes for the top honors in the Penny Flame home economics awards program. The finals will be held at the NI-Gas general office - on the East-West Tollway.

Recently, she won regional semifinals in the annual program sponsored by Northern Illinois Gas Co. in cooperation with schools in the northern Illinois area. Saturday, she will be competing with 11 other outstanding home economics students on the senior level of the contest for \$1,000 and \$300 college scholarships. In addition, six junior level contestants, of junior high school age, will compete for monetary awards of \$200 and \$100.

Because of outstanding academic achievements and an unusual ability in home economics, Kathleen was selected to represent Carl Sandburg High School by her home economics teacher, Mrs. Patricia Cote. She is a four-year honor student and holds memberships in the Pep Club, Girls' Athletic Association and the Future Homemakers of America. In the latter, she has served as secretary, vice president and president of local sections and chapters. In 1964 and 1965, she was a FHA delegate at national and state conventions.

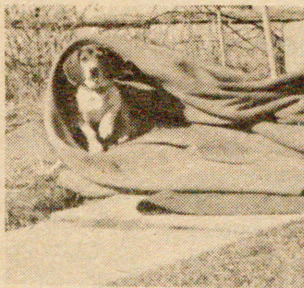

With this background, it's not surprising to learn that Kathleen will enter Iowa State University of Science and Technology next fall. She hopes to obtain a home economics degree. And that \$1,000 scholarship would be

a great help.

For the NI-Gas scholarship program, Kathleen developed her own recipe and determinedly starting baking cherry pies early last fall. Since then, she estimates, about 20 to 30 pies were baked for practice. Her parents, Mr. and Mrs. Frederick Diekman, 7914 Redondo Drive, and two brothers, Frederick and Christopher, have been the judges for the at-home baking.

In the final competition, however, Kathleen will be judged not only on her cherry pie. Three professional home economists will test her knowledge of home economics principles, home-making ability, poise and personality.

Here is Kathleen's recipe for a nine-inch cherry pie which she will bake Saturday:

A BLANKET can be a very comforting thing when cold winds blow. We are sure this beagle would speak up to this effect if his vocal cords permitted. How the blanket shaped up like this, the photographer didn't know. Maybe the beagle did it. However it happened the dog was making use of it and finding it very comfortable. Last Thursday was on the nippy side when this picture was taken at Mokena, with a strong west wind that was whistling anything but Dixie. (Graphic Newspapers Photo)

New Phone Directories To Be More Convenient

The 1966 telephone directories, due this March, will be a little thicker, easier to read and more convenient to use, according to Miss Shirley Fisher, acting telephone company manager.

The directory will have a local alphabetical section in enlarged type at the front of the book.

Following a local Yellow Pages section, will be a regional alphabetical listing--also in enlarged type.

Present directories have only the regional and Yellow

Page listings.

"The localized alphabetical listing and the enlarged type are being used because we have had many requests to do so," Miss Fisher said.

"The improvements are part of a \$1 million program to provide our customers with the type of book they feel will be most useful to them," she added.

The local sections include listings for Mokena, Frankfort, Manhattan and New Lenox.

Joseph V. Kaiser, Scout Leader, Dies

Honor Late Joseph Kaiser In Memorial Resolution

A memorial resolution expressing their grief over the death of Joseph V. Kaiser and commending his long service to the community, was adopted by the Orland Park village board at a special session Monday night.

Mr. Kaiser was active in the civic affairs of the Orland community, the resolution sets forth, particularly in the Boy Scouts of America, "in which organization he distinguished himself for his unselfish service as a volunteer worker so that on June 8, 1964 there was bestowed on him the Silver Beaver Award, the highest award given for devoted service to scouting."

The resolution continues: "Whereas, Mr. Kaiser was still active in the Boy Scouts ... at the time of his death and his services will be greatly missed in this community; and

"Whereas, Mr. Kaiser's work with the youth of this community will stand as a permanent memorial to him; and

"Whereas, this Board as well as all citizens of the Village of Orland Park and the Orland Park community deeply appreciate the voluntary services rendered by Mr. Kaiser to the Boy Scouts

of America and the youth of this community.

"Therefore, be it resolved that this resolution be adopted as a mark of our sincere respect for the memory of Joseph Kaiser and as a token

of our heartfelt sympathy for his widow and family in their bereavement."

A copy was ordered spread on the records of the Village Board and a copy was also sent to the Kaiser family.

Annexation Question Could Stir Debate In Mokena, Arbury

The Mokena village board, which has been approached on the possible annexation of Arbury Hills, has had considerable discussion on the subject and will have a lot more before arriving at any conclusion, it was indicated by some of the members.

There are numerous problems involved, including what procedure to follow in bringing annexation about. Some municipalities have made use of "strip annexation" to bring in an area that is not contiguous, thru annexing a road or highway leading to it.

Questions as to the legality of "strip annexations" have been raised in various areas and some of the lower courts have ruled for and against such procedures, it was pointed out.

Assuming that Arbury Hills could be properly annexed to Mokena and was willing to be annexed there are other questions the board wants answered.

The water and sewer system of Arbury Hills is owned by the Citizens Utilities Company. If the subdivision were annexed the village of Mokena would have to acquire this system but before that, the board was advised by its counsel to get an estimate of the cost of operation and maintenance of the system; an estimate of how much revenue it would produce; an estimate of how

much it would cost to repair and put it in proper condition, and what, if any, advantage would accrue to the bonding power of the village.

According to Trustee Marvin Weitendorf, head of the water and sewer committee, the Citizens Utilities Company has received notice from the State Water Board that it will have to build a polishing (oxidation) pond this year to provide additional treatment for the sewage now handled by the sewage treatment plant originally built by the subdivider. There are approximately 240 homes in the subdivision, it was said.

If annexed, it was pointed out, Mokena would have to provide the same services that it furnishes within its present boundaries. This could include street maintenance and repair.

It was pointed out that the village would get in some revenue thru taxes; the sale of vehicle stickers; the sale of water and sewer service and the increase in population would bring in more money thru the motor fuel tax, which is distributed by the state on a per capita basis.

Residents of Arbury Hills would pay more in taxes, it was said, but would pay less for water and sewer than they do now.

L-W Teachers To Go On New Pay Schedule

The Lincoln-Way High School Board of Education adopted the proposed improved salary scale for the teaching staff at its regular session last Thursday night. The new contracts will follow the new schedule.

Beginning teachers with their master's would fall into two categories--those with a degree in general education would get \$5,800; if they had their degree in a specific subject, such as mathematics, chemistry, the languages they might teach, etc., their starting salaries would be \$5,900. Those with master's degrees would reach the maximum rates--\$8,900 for the general and \$9,200 for the specific--in 13 years.

By June, 1967, the Joliet area will have an addition of approximately 9,200 persons to its working force, which would mean an influx of some 18,000 people, the New Lenox Association of Commerce was told at its regular luncheon meeting in Bruns restaurant Tuesday.

Marilyn Lee Sorensen And John E. Jakovich Are Wed

St. Mary's church, Mokena, was the setting for the wedding of Marilyn Lee Sorensen and John J. Jakovich on January 15. Father Cecil Koop officiated at the nuptial mass before an altar decorated with orchid and white mums, uniting the daughter of Mr. and Mrs. Alvin Sorensen, 19333 S. Wolf rd., Mokena, and the son of Mr. and Mrs. John E. Jakovich of 805 Summit, Joliet.

Given in marriage by her father, the bride wore a floor length gown of peau de soie, detailed with a scoop neckline and elbow length sleeves. The molded bodice and sleeves were lavishly adorned with Alencon lace and seed pearls. The watteau train was also accented with the lace and seed pearls. A peau de soie pill box, encrusted with seed pearls, released the brides silk illusion veil. She carried a cascade of white roses and stephanotis.

Maid of honor was the bride's sister, Joan Sorensen. She chose a toe-touching empire sheath fashioned with a purple velvet bodice trimmed with orchid venise lace and a skirt of orchid crepe. Her headpiece was a purple velvet bow accented with net. She carried a cascade bouquet of pink carnations.

Bridesmaids, Miss Mary Alice Jakovich, sister of the groom and Miss Janice Miller of Mokena were dressed identically to the maid of honor.

Patricia Sorensen, sister of the bride, acted as flower girl and wore a dress similar to the bridesmaids. She carried a white basket holding rose petals.

Gerry Peppard performed the duties of best man for his cousin. Ushers were Anthony Golobitsh, cousin of the groom, Thomas Kucinic, John Starascinic and Robert Sorensen, brother of the bride.

Sister Harriet was the organist and accompanied Miss Judith Kuchenbecker, who

MRS. JOHN JAKOVICH

sang the mass.

When the bride placed a bouquet of red roses on the Blessed Virgin's altar, Miss Kuchenbecker and Miss Frances Klinger sang Panis Angelicus.

A reception was held at St. Joseph's parish park in Joliet with 500 attending. Music for dancing was furnished by a combo.

The bride's mother greeted guests wearing a embroidered brocade sheath of powder blue with match-

ing accessories. The groom's mother chose a sheath dress of pleated venetian green chiffon with matching accessories. Both mothers wore corsages of natural cymbidium orchids.

For their wedding trip to Florida, the new Mrs. Jakovich was wearing a three piece green tweed and leather suit with matching accessories.

The couple are now at home at 1609 Campbell, Joliet.

A Special Phone for the Hard-of-Hearing

The little wheel on the handset lets you turn up the volume of the caller's voice.

It's adjustable to suit your needs—just like the volume control on your television set. With the volume turned down, it's a regular phone.

This phone is one of many services we've developed to help the handicapped communicate. Others include special visual signals to replace the telephone bell for the deaf; an electronic larynx that lets many people talk despite impaired vocal cords; a switchboard for blind operators; telephones that can be used without being held, for people with limited use of hands and arms; and a handset that lets the caller amplify his voice if his speech should be impaired.

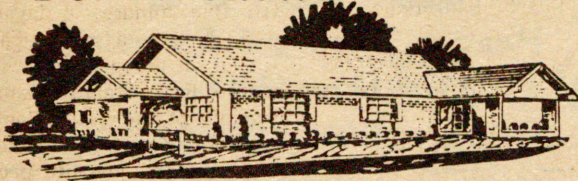

Where these standard aids are not the answer, telephone engineers may be able to design and build devices to meet special communications needs.

So, if you or someone you know could benefit from services like these, let us help. For more information, call your Illinois Bell Service Representative.

Christian Science Planning Observance Of 100th Anniversary

Plans for a year-long observance of the 100th anniversary of Christian Science were announced today by the Christian Science board of directors of the Mother Church, The First Church of Christ, Scientist, at Boston.

Major events will include a worldwide public speaking tour by the editor in chief of the Christian Science Monitor, publication of a new book titled "A Century of Christian Science Healing," and the start of work on a new "Church Center" construction program.

The centennial stems from events in 1866 which marked the turning point in the life of Mary Baker Eddy and began her pioneering by a world religious movement.

A spiritual healing which Mrs. Eddy experienced in 1866 turned her life-long study of the Bible into an intensive searching that produced the earliest manuscripts on Christian Science. She became convinced that Christianity is scientific in the deepest spiritual sense and applies to every aspect of human experience.

Later, she wrote the Christian Science textbook, "Science and Health with Key to the Scriptures," and founded a church which now includes 3,300 branches in

more than 50 counties.

Centennial activity within the church will come to a focus at the annual meeting in Boston on June 6. Land clearance will begin that day for construction of an expanded 15-acre church center, while members gather to consider their movement's progress and spiritual mission.

Thruout its century of development, Christian Science has continued to be a lay movement of people dedicated to restoring spiritual healing to Christianity. They are convinced this can be done on a sound, permanent basis and they believe this is a necessary first step towards fulfillment of Christianity's larger purpose—spiritual transformation.

These ideas will be touched upon in some of the special public events planned for the centennial.

One highlight will be the speaking tour of the world's major cities by Erwin D. Canham, editor in chief of The Christian Science Monitor. His talk on "The Spiritual Revolution" is intended to further the broadening communication among religions and also between religion and science. The tour will start in Sydney, Australia, on March 1 and will extend thru most of the world

during the year.

In April will come the publication of "A Century of Christian Science Healing" which is expected to be of wide interest. The book will provide a chronicle of the

development of spiritual healing, based on church records. It will include an explanation of the differences between spiritual healing and current methods of psychotherapy and psychosomatic medicine.

Blair Is Candidate Again For Assembly

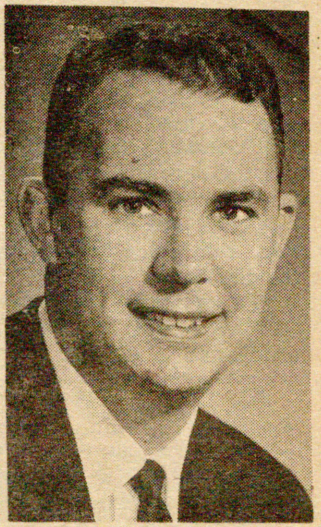

State Representative W. Robert Blair this week announced his candidacy for re-election to the Illinois house of representatives from the 41st representative district. The district comprises all of Will county except the townships of Channahon, Jackson, Wilmington, Florence, Reed, Custer and Wesley.

Representative Blair was elected to the 74th general assembly in the state-wide-at-large election in November, 1964. He served as a member of the house committees on industry and labor relations, municipalities and public utilities, railroads and aviation. At present he is a member of the Illinois highway study commission.

During the session Representative Blair was an active member of the House "Economy Block" which acted as a legislative check on state government expenditures by reviewing all important appropriation bills. In addition, he was a member of the Republican joint senate-house task force on reviewing the budgets of various departments and commissions. He sponsored 77 bills and resolutions, primarily in the fields of schools, anti-crime, elections, motor vehicles and traffic regulations, municipalities, townships and state government.

In announcing his candidacy, Representative Blair stated that "I am seeking re-election to the general assembly in order to continue to serve the people of Illinois, and particularly my Will county constituents, as a constant advocate of fiscal responsibility in the operation of government with the most important consideration being that government should do only that which the individual or the local community cannot do." He further declared "I am looking forward to campaigning only in Will County as compared to the state-wide campaigning that was necessary in the at-large election."

Representative Blair has been a Republican precinct

W. R. BLAIR

committeeman since 1958 and has served as a vice chairman of the Will county Republican central committee since 1962. He has headed several GOP campaign groups and served as general chairman of the party's annual picnic. He was recently general chairman of the Republican congressional dinner-dance in Joliet. In 1965, he was named "Outstanding Male Republican" by the Will County Young Republicans.

A Park Forest attorney and a member of the Will county, Illinois State and American Bar Associations, Representative Blair has been active in community affairs in his area and in the county. He is attorney for Monee township and is a member of the Will county public building commission. In addition to his law practice, he is President of Fairfax Realty company in Park Forest. He served in the United States Air Force for two years.

Representative Blair and his wife, Pat, have three children, Steven, Mark and Susan. The family resides at 124 Shabbona Drive in the Will county section of Park Forest.

Arends Candidate For Congress Again

Congressman Leslie C. Arends, (R), of Melvin, has announced his candidacy for reelection to the seat he presently holds from the 17th Congressional District consisting of Ford, Iroquois, Kankakee, Livingston, McLean, Vermilion Counties, and all of Will County except DuPage, Joliet, and Lockport Townships.

Mr. Arends is now serving his 16th consecutive term in Congress and has risen to a powerful position of leadership in the House.

In addition to being the Republican Whip, he is the senior Republican on the Armed Services Committee which deals with all matters pertaining to national defense.

As the party whip he serves as assistant floor leader and has an important voice in the formulation of Republican policy and strategy. He is chairman of the Illinois Republican delegation, a member of the Republican Committee on Committees, which makes committee assignments of House Republicans. He is also a member of the Republican Police committee, and participates in the joint House-Senate leadership conferences.

For the past several years Congressman Arends has been an official U. S. Congress Delegate, appointed by the Speaker, to the annual NATO Parliamentarians Conference where he serves on the Military Committee dealing with mutual defense plans.

"Thruout my service in Congress, I have earnestly endeavored to give the people of the district, individually and collectively, the high quality of representation to which they are entitled," Mr. Arends said in announcing his candidacy.

"As a candidate for reelection, I shall run on my record. Just as 'actions speak louder than words' I believe my performance record will speak with the people more emphatically than political promises all too characteristic of election campaigns.

"The issues are many and fundamental. In view of the grave uncertainties with respect to Viet Nam and the international situation generally, our defense posture and plans must be a primary consideration. First things first. Our national security and fiscal stability in this revolutionary period come first that we may be fully prepared, militarily and economically, for any and all emergencies, present and future. Only a free society solidly based on proven principles -- constitutional, economic, and moral -- can be a great society capable of sustained progress and prosperity in a world at peace."

Congressman Arends was born and reared in Melvin, and has lived there all his life. He owns his home and operates farmland in the vicinity. He is a member of the Methodist Church in Melvin, a Mason, a World War

Immanuel Lutherans Will Move Into New Church This Sunday

Immanuel Lutheran Congregation will move into its new church building on La Porte Road this Sunday morning, Feb. 27.

The 115-year-old congregation will meet in the present church at Cross and Union Sts. at 8:30 a.m. for a brief farewell service. This church was dedicated 50 years ago on March 19, 1916.

At the close of the farewell service those attending will form a car procession to go to the new building. The arrival of the congregation at the new site will be heralded by the ringing of the 79-year-old church bell which will be calling the congregation to worship in its third church building.

At the church door the pastor, Dr. A. J. Bueltmann, will offer a prayer and the door will be unlocked and opened by the chairman of the building committee, Robert O. Geuther. Led by the pastor the congregation will file into the new sanctuary where an informal, unified, dedicatory service will be held with Dr. Bueltmann preaching the sermon. The Junior Choir will sing a dedication anthem, "Lord

of the Worlds Above."

Following the sermon Sunday school pupils will go to their new classrooms for a brief lesson. At the conclusion of the lesson the pupils will rejoin the congregation in the sanctuary for prayer and benediction.

Since considerable work remains to be done on the building formal dedication will not take place until the latter part of May.

The new building has three units, sanctuary, educational, and fellowship. While the building is built on two levels, the sloping terrain permits a one-step entrance both on the main level and the lower level.

The main level contains the sanctuary seating 168 persons, administrative office, pastor's study, and six classrooms.

The lower level consists of fellowship hall, kitchen, six classrooms, washrooms, and boiler room.

Members of the building committee in addition to Mr. Geuther are Donald Ambuehl, Raymond Bernard, Albert Janner, Melvin Moutrey, Robert Niemann, Walter Welsch and Dr. Bueltmann.

AIRMAN Dennis E. Redman, son of Mr. and Mrs. Ted C. Nowak of 9133 145th St., Orland Park, has been selected for technical training at Chanute AFB, as a U. S. Air Force aircraft equipment repairman.

Lincoln-Way Five Hopes For Second Place Finish

BY TOM SCARTH

The Lincoln-Way Knights were able to bolster their win column last week by rolling over Evergreen Park 85 to 74. The Knights now hold third place and may very well end up in second if the Oak Lawn quintet upset Homewood - Flossmoor this Friday and the Knights beat Bremen.

The first period of play was kept very tight with the Knights holding a one point advantage 17 to 16. The second period proved to be the margin of victory for the Knights as they tallied 22 points compared to the Mustangs 14 to take a half time lead of 39 to 30.

In the third stanza the

Knights were able to continue their bucketteering and again outscoring the Mustangs 20 to 16.

Earl Sholtens, Evergreen's leading scorer, with 26 points sparked his team in the final period to outscore the Knights 28 to 26 ending the game with the Knights atop 85 to 74.

For the third straight time it has been 6-3 forward Mike Seitzinger and 5-8 guard Frank Fleck who have led their team to victory, scoring 31 points between them; Seitzinger with 17 and Fleck with 14.

"Old Reliable" Keith Schram came up with an 11 point quota and Pat Mc-

Cabe 6-3 Sophomore forward, also connected for 11 points while senior forward Karl Warning tallied 10 points.

Playmaker Bill Stanfill accumulated nine points followed by Steve Ihde who totaled 6 points.

The Knights shot a flashy 69% from the field and 60% at the charity line compared to Evergreens 42% from the field and 81% at the line.

The Sophomores were victorious over Evergreen 49 to 42. Tomorrow ends the conference bill with the Knights at home for the last time this year against the Bremen Braves.

Sandburg Will Have Two Men In State Mat Finals

Carl Sandburg wrestlers who have walked off with two sectional titles in four years, had to settle for a lower place this year.

There were 25 schools competing in the sectional last weekend. Sandburg was the host but because there is more room in the Alonzo Stagg gym, the meet was conducted there.

Blue Island finished in top spot among the teams with a 39 point score. Thornton of Harvey was second with 34 and Bremen was third with 33. Sandburg was eighth with a total of 23 points, but two of its wrestlers finished

second and so will compete in the state finals.

Ray Zadravets, a junior, who wrestled at 180 pounds, and Karl Pnizek, a senior, a heavyweight, will represent the Eagles. Harry Werner, a senior got a third in the 165 pound class.

Sandburg, Bloom, Thorn-

ton, Joliet Catholic High School, and Lockport Central will each send two men to the state finals; Oswego will have three there.

There were 32 schools in the regional tournament in which these schools started.

Lincoln - Way failed to score in the sectional.

PANCAKE PARTY, -- THE PANCAKES WERE FREE --an annual affair staged by Moss Equipment Co., of New Lenox, was held at Francis 4-H Field, on Francis rd., New Lenox township on Wednesday of last week, and it was well the switch in location was made because the attendance was larger than ever and the 4-H Exhibition Building provided more room than is available at the company's sale's room and shop on U.S. 30. Farm machinery was shown in the hall as well as on the grounds. A lot of music was provided by the Vaga-Bums, of Lockport, Russell Cronholm on the piano accordion and Wally Schrupf with the bass fiddle. (Graphic Newspapers photo)

THOSE EMPTY CHAIRS in the foreground were quite unusual at the spring showing of farm equipment put on last week by the Moss Equipment Co. of New Lenox at Francis 4-H Field. Free pancakes and sausage were served to the visitors who totaled more than 1,500, so there were few vacant chairs at the numerous tables. The ladies in the kitchen fried 164 pounds of sausage and made more than 5,000 pancakes. Fifty dozen doughnuts also were consumed and several hundred gallons of coffee. Earl Moss and Harlow Jensen were on hand to greet the visitors. (Graphic Newspapers photo)

Completing Fashion Show Plans

The Orland Park Junior Woman's Club is busy at work putting the finishing touches on their annual fashion show to be held March 4 at Silver Lakes Country Club. Mrs. Ronald Ham-mortree, ways and means chairman, has set the theme as "Spring Time in Paris." Hostesses for the evening will be dressed in black floor length gowns with white plumes in their hair. Anyone wishing tickets (at \$1.75) may purchase them from any club member or from the ticket chairman, Mrs. Robert King 15050 Holiday Court, 349-8224.

Mrs. Thomas Sacco and Mrs. John Furlong were guests on Valentine Day of the Don McNeil Breakfast Club, which was broadcast from the Cloud Room of the Allerton Hotel in downtown Chicago. Mrs. Sacco is Channel 11 chairman for the Juniors and she invited Mrs. Furlong to join her for this special all channel 11 broadcast in conjunction with their annual drive.

Mrs. William Shell, Junior projects chairman has reported collecting a total of 1,855 stamps for the wounded, from various club members. This has been a 3rd District Junior project for

many years. The stamps were sent to Barbara Cornett, project chairman, 3rd District Illinois Federation of Women's Clubs, who will distribute them to veteran hospitals to be used in their work rooms.

Mrs. Shell still has a few little bell bracelets and earrings left. This has been another of the junior projects for the past two years. The proceeds from this project have gone to build a two-room school house in El Ocate, Hidalgo, Mexico. The building was a high light visit of the General Federation of Women's Clubs tour in Mexico last September. A bronze plaque has been dedicated and hung on the outside of the building identifying the school as a gift to the Illinois Federation of Woman's Club Juniors.

Mrs. Masdames Martin, Sims, Riley, Powell, Bonnar, Zurbuchen, Diehl and Shell have volunteered their time and energies to make 30 stuffed toys to be sent to the floating hospital ship USS Hope. The juniors have made and sent toys for the past several years and find it a rewarding job. The women are in need of 12 hos-

pital gowns to be used by the patients while aboard ship for treatment. These gowns can be made from your old white shirts, by cutting off the collar, and shortening the arms and tails. These are then worn buttoned down the back. Anyone having old shirts may have them picked up by calling Mrs. Shell at 349-2926.

Approximately six members from the music and drama committee are writing a script and making costumes for the up and coming General Federation of Woman's Club convention this year in the Conrad Hilton Hotel, Chicago. The 3rd District Juniors have been chosen to give the entertainment for the evening of June 4, at the Junior Get-together. This is the 75th year (the Diamond Jubilee) of the GFWC with their convention running from June 6 to 10. Since Illinois is the hostess state for the GFWC convention in June several of the girls from Orland Juniors will be asked to be hostesses for those from other states. Preceding the GFWC by about a month will be the Illinois Federation of Woman's Club convention, held as usual at the Sherman House.

Simon For Tighter Controls To Combat Flood Dangers

Seymour Simon, president of the Cook County Board of Commissioners, urged suburban municipalities to join the county building department and the Metropolitan Sanitary District in tightening controls over building in areas susceptible to flooding.

Simon has directed Daniel Ferrone, county building commissioner, to refuse building permits to developers who propose to build in flood plain in the unincorporated area. Only when the developer assures Ferrone that flood control precautions will be taken will a permit be issued.

Simon also said the county zoning board of appeals soon will consider measures that would incorporate flood control restrictions into the county zoning code.

"Flood plain zoning is a small but important tool in the battle against flooding,"

Simon said. "To be effective, tho, it must be employed by the suburbs as well as the county. Our authority is limited to the 318 square miles of unincorporated land."

Lack of adequate flood plain building regulations was one of the major factors in the devastating floods that swept thru the southern suburbs last Christmas, Simon said.

"One of the reasons that the village of Harvey did not suffer more from flooding is that it has sought to implement flood plain regulations. Its less fortunate neighbor, Markham, was inundated, partly because it lacked such regulations.

"I am concerned that home construction is continuing to this date in the Kingston Green subdivision in Markham--which suffered worst in the floods," Simon added. Flood plains have been

delineated on maps prepared for the area by the U.S. Geological Survey and the Northeastern Illinois Planning Commission. The maps show the extent of flooding in the past.

Flood plain zoning regulations won't do the job of

flood control alone, Simon said, urging suburbs to consider other modern flood control methods. He recommended cooperative governmental action in constructing multi-purpose reservoirs--which could provide scenic and recreation benefits as well as store flood waters.

Plans for such a joint project for the Markham - Harvey-Hazel Crest south suburban area now are being considered by affected government officials. Simon authorized these plans after

touring the flooded areas last Christmas.

Simon noted that the county forest preserve district has been a pioneer in flood control--by buying land along waterways in the flood plain and turning it into forests.

Simon also saluted a step taken by the Metropolitan Sanitary District yesterday, to tighten controls over issuance of sewer permits for homes planned to be constructed in flood plain areas. Cooperative action by all levels of government can help solve the enormous prob-

blem of suburban flood control, Simon added.

Success in joint efforts, like the experiment in the south suburbs--could prove once and for all that the governments closest to the people can solve their joint problems by acting together, he said.

"Success in cooperative ventures will disprove the unrealistic and unsound theory that enormous problems--like flood control--require solution by a metropolitan supergovernment," he added.

Walter Rainford, 87, Dies; Rites Tuesday

Walter Rainford, 87, of Mokena, a lifelong Will County farmer, died Saturday, Feb. 19 at Silver Cross hospital.

Death followed a lingering illness.

A son of the late George and Mary Rainford, he was born in Wesley Township. He farmed there for many years. In 1942 he moved to Mokena where he continued to farm. Mr. Rainford was a member of the Will County Farm Bureau.

His wife Bertha died in 1953.

Survived by two sons, Roderick E. of Frankfort and Robert of Mokena; a daughter, Mary E. of Mokena and two grandchildren.

Services were held Tuesday, Feb. 22 at the Sonntag,

Burgess and Wylie Chapel with the Rev. James Parker officiating. Burial was at Pleasant Hill cemetery, Frankfort.

Open Letter from the Hirschs

Dear friends,

It is generally agreed that a personal note is a proper acknowledgment for a floral offering, mass card, or donation to charity in memoriam.

Where the number of acknowledgments becomes too numerous for the writing of personal notes, acknowledgment cards, personally signed, are quite acceptable.

Respectfully,

Edwin Hirsch

Gone dear Mother, gone forever. The one we loved was called away. The LORD took her home, it was His will.

How we miss her smiling face, A happy home we always enjoyed. Some may think you are forgotten, Tho on earth you are no more. But in memory you are with us. As you always were before.

Since that sad day you passed away, Life is lonelier tho-

It's just three years ago. All your life you were so loving and thoughtful,

Math Teachers To Hear Experts Talk

Approximately 50 members of the Chicago Area Mathematics Consultant Association will meet tomorrow (Friday) to take a close look at mathematics instruction in their schools. Included among the speakers at the conference is the director of the Greater Cleveland Mathematics Program (GCMP) for the Educational Research Council of Greater Cleveland. GCMP was one of the first "modern" math programs developed and continues to be one of the most widely used.

The meeting is scheduled from 9:30 a.m. to 3 p.m. in the Champaign Room of the Knickerbocker Hotel. It is sponsored by Science Research Associates, Inc., Chicago-based educational publisher. It is planned as a practical meeting for those

with a good background in mathematics and will treat many of the more advanced areas of math instruction.

Both the Chicago Public Schools and the Chicago Archdiocesan Bureau of Education plan to send representatives to the meeting. Suburban schools which will be present include Lincoln-Way, Elmhurst, Glen Ellyn, Naperville, Lombard, Libertyville, Antioch, Westmont, Deerfield, Skokie, Arlington Heights, Waukegan, Lake Forest, Highland Park, Winnetka, Morton Grove, Batavia, Wheaton, Thornton, Glencoe, and Oak Park.

Science Research Associates, Inc., a subsidiary of the IBM Corporation, is a leading publisher of modern curriculum and guidance materials for all grade levels.

Teachers Get Paid At This Institute

The "New English"--the latest findings about teaching language and composition--will be the focus of a special Summer Institute for secondary school teachers to be held at Northwestern University June 20 to Aug. 12.

Jointly sponsored by Northwestern and the U.S. Office of Education under the National Defense Education Act, the Institute will offer 45 high school teachers an opportunity to learn about recent developments in the study of the English language and in the teaching of writing.

"We will also offer participants the chance to translate their new knowledge into curriculum planning," said Institute Director Harold Hungerford, assistant professor of English at Northwestern.

"Many exciting things have been happening in English studies in the last ten years," Hungerford said, "and this Institute is one way of making them available to high school students."

Hungerford said the Institute for teachers in northern Illinois, but it is also open to teachers from other parts of the country. Application for the Institute must be submitted by Mar. 21.

"Participants will receive a stipend of \$75 a week plus an allowance of \$15 for each dependent," Hungerford said. "This means that many teachers who could not afford to continue their education will now have the chance."

The Institute staff will include James Sledd, professor of English at the University of Texas and Wallace W. Douglas and Thomas Pyles, professors of English at Northwestern.

Sledd will teach new theories of the structure of English, Douglas the theory and practice of composition, and Pyles the history of the English language.

Additional information and application forms are available from Harold Hungerford, 621 Foster St., Evanston, Ill. His office phone is 312-492-7585.

MR. AND MRS. JACK C. THOMAS

Anderson-Thomas Nuptials Solemnized In Orland Church

At a noon candlelight ceremony on Dec. 11 Karen Jean Anderson, daughter of Mr. and Mrs. Harry Anderson of 108th Ave., Orland Park and Jack Clayton Thomas, son of Mr. and Mrs. Clayton Thomas of LaGrange were united in marriage at the Orland Park Methodist Church. The Rev. Leon Leatherman officiated at the double ring ceremony.

The center of the altar was banked with white poinsettias and evergreens decorated the candelabra.

Mrs. Alma Rauch served as organist and Mrs. Jon R. Anderson, sister-in-law of the bride, sang "Because" and "Love Never Fails."

Given in marriage by her father, the bride wore an A-line peau de soie floor length dress and her chapel train

fell from the shoulders. Beaded alencon lace detailed her scooped neckline and the front of her dress. An unusual crown of beaded alencon lace shaped as a fan and with tiny clusters of rosebuds with three petals detailing the front secured her three tiered silk illusion veil. She carried a bouquet of Amazon lillies entwined with holly and evergreen.

Mrs. James C. Flory, sister of the bride, was matron-of-honor and Mrs. Fred Junger was bridesmaid. The attendants wore identical dresses of floor length, emerald green chiffon and carried sprays of red poinsettias and evergreens. Their headpieces were veiled crowns of beaded and sequined loops.

Attending the groom were Lance Breckinridge and George Kosiarek. Leroy Reagan and Jack Fagar served as ushers.

The bride's mother wore a three-piece moss green lace and silk shantung suit with matching accessories. The groom's mother wore a two-piece blue dress ensemble. Both wore corsages of Cymbidium orchids.

Following the wedding luncheon was served at Silver Lake Country Club for eighty guests.

After a honeymoon in Nassau the Thomases are a home in LaGrange.

The bride, a graduate of Carl Sandburg high school is employed at Reynolds Metals and the groom is employed by the Chicagoland Dodge Dealers Association.

Set January Milk Price To Farmers

Chicago market dairy farmers will be paid at least \$3.95 per hundredweight, one cent less than the top blend price of 1965, on all January deliveries of milk to plants within the Chicago Federal Order 30 marketing area, it was reported today by W. H. Cope, director of marketing for Pure Milk Association.

This figure is a blend of the Class I (bottled) milk price of \$4.30 per cwt. and the Class II (manufacturing) milk price of \$3.47 per cwt. paid Chicago market producers for January deliveries.

The \$3.95 price is 29 cents higher than the superpool blend price of \$3.66, which included a 2-cent superpool premium paid producers in January a year ago on 70 percent of their deliveries.

The improvement in the Chicago market producer price over January 1965 is attributed to a 16 percent decrease (85 million pounds) in the total production carried by the Chicago pool, the secretary of agriculture's decision to maintain

the Chicago Class I price to producers at the November level of \$4.30 per cwt. thru February, and competition between cheese and butter plants for supplies of manufacturing milk.

The January price of \$3.95 per cwt. is for milk of 3.5 per cent butterfat test delivered to plants in the marketing area. The differential for each one-tenth of one per cent butterfat above or below 3.5 per cent is 7.1 cents per cwt.

January deliveries of milk under Chicago Order 30 totaled 447,311,307 pounds, nearly 24 million pounds more than the deliveries of the preceding month. One outcome of this increased production for the market was a decrease of 4 per cent in Class I utilization which reached 48 per cent in January.
